TODAY'S QUOTES

65 Years old is still young!

How old is old? World Health Organisation (WHO) had declared that 65 years old is still considered young. Before, based on the Friendly Societies Act (1875) in Britain, old was defined by age of 50. The UN has not adopted a standard criterion but lately 60 years old was referred as the border age to the word 'old'. However the health organisation had done a new research recently, according to average health quality and life expectancy and defined a new criterion that divides human age as follows:

- 0 to 17 years old: underage
- 18 to 65 years old: youth or young people
- 66 to 79 years old: middle-aged
- 80 to 99 years old: elderly or senior
- 100+ years old: long-lived elderly

THOUGHT OF THE DAY

THOUGHT of the day

If, one day
We all are allowed
to put our troubles on a table
and exchange them.
I m sure that
After few moments,
everyone would silently
take back their Own and leave the table

Read it twice 🙌🙌
This is awesome!!!!

GOOD MORNING

A small kid asked his mom - Mom - how do you always know how to solve my problems?? Mom replied well you know God makes us take an exam to be able to know and solve all your problems before we become mummy. Only when we pass the test we become Mom!!! The kid gave a knowing smile and said - I understand... If you fail in the test you become Daddy!!

For all the moms in the group
